Do this

Hey there! if you succeeded in getting to the end that's very good of you and congratulations.

NEXT STEPS

Go ahead and work on a basic HTML, CSS, and Typescript application to strengthen your typescript skills, you can try to build a tic-tac-toe game.

- Try a simple CRUD react application with React and Typescript

- Stay connected to me as I will be releasing more powerful courses in this domain. Courses that enhance your previously gotten skills with projects (e.g. Complete E-commerce app, Video Conferencing, Movie applications) and even applications that concern NodeJS for backend, MERN apps.

- Please leave an honest (5-star) review of this course. God bless you and stay connected

🟣 In my youtube channel I'll be putting up free and quality courses like this one so you can continuously grow your skill
